

2 Day PADI Open Water Referral Course

What better way to complete your dive training than in the clear, warm waters of Australia's Great Barrier Reef! If you have already completed the pool & theory component of your PADI dive course, and have an Australian Standards Medical, Tusa Dive can complete your dive training with our two day PADI Open Water Referral Courses.

You will join the Tusa Dive Day Trip for two days in order to complete your four required 4 open water training dives and acquire a PADI International Dive Certification. Tusa 6 departs daily from Cairns Marlin Marina to two outer reef destinations. A 90 minute journey to the outer reef will see you arriving at the first of the day's two sites, selected from a range of 16 unique locations. Sites are chosen as optimum for the weather conditions, and change daily, so each day will bring you a whole new underwater adventure. Your 4 open water training dives will be completed over the 2 days with one of Tusa's experienced Instructors, PLUS you have the opportunity for a further 2 pleasure dives. TUSA Dive have been operating day dive tours in the region for 25 years, and their intimate knowledge of the Great Barrier Reef, friendly professionalism and personalised service, will ensure your PADI referral course is enjoyable, relaxed and full of amazing experiences.

What you need to bring with you:

- Your 'Referral' paperwork, as issued by the Dive Instructor who completed your pool and theory.
- An Australian Standards medical. See notes following.
- Two passport photos

- 2 x passport photos
- Cairns hotel transfers available at \$10 per person per day (Northern Beaches \$15 pd)

Medical Information

The Australian Government requires a Dive Medical to be completed by a doctor familiar with dive practices and in compliance with Australian standards AS4005.1 to be passed before you can begin your Open Water training dives. A Dive medical can be completed at The Cairns 24 Hour Medical centre on the corner of Grafton and Florence Street. The medical fee is AU\$50.00. A dive medical can be done at any time and an appointment is not necessary. *Please note that a history of asthma, diabetes or epilepsy may cause you to fail the dive medical.*
