Medical Information

Prior to commencing the Learn to Dive Course participants are required to complete the self-assessment [Entry Level Student Dive Medical Declaration](#). A positive response to any question means that there is a pre-existing condition that may affect their safety while diving and they must consult a medical practitioner preferably with experience in diving medicine to obtain a dive medical certificate stating they are fit to undertake recreational diver training.

Cancellation Policy

A full refund will apply due to failure of the dive medical or cancellation of the dive course for any reason, until the end of the first day of the course. After the end of the first day of the course, 100% cancellation fee applies.
